Re: Bayonne Barrel & Drum Superfund Site, 150-154 Raymond Boulevard, Newark, NJ
Essex County, New Jersey

Dear Atty. Seidenberg:

As stated in my October 26, 1995 response to request for information on the Bayonne Barrel & Drum Superfund Site, I suspected that one of the TSD facilities we used to dispose our waste, sent the empty drum to Bayonne Barrel & Drum with out removing the previous markings.

The summary of information you sent on November 20, 1995, confirmed my suspicion. I was able to locate manifest no. CT0005813 (copy enclosed). This drum was shipped and disposed of at Solvents Recovery of New England on July 14, 1982.

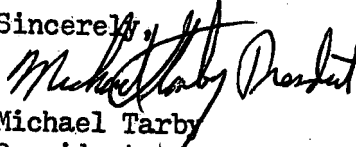

I am not responsible for this drum ending up at this facility. I request that Mikon Products be take off the list of Potential Responsible Parties for Bayonne Barrel & Drum.

As you probably know, Solvents Recovery of New England is in itself a Superfund Site. We were named a PRP at this site, and have closed our responsibilities with a financial settlement. We should not be responsible for this drum.

You must have additional documentation that Solvents Recovery of New England had business relations with Bayonne Barrel & Drum.

Please contact me as soon as possible regarding this request.

Sincerely,

Michael Tarby
President

Re: Bayonne Barrel & Drum, Superfund Site, 150-154 Raymond
Boulevard, Newark, Essex County, New Jersey

Dear Mr. Tarby:

On October 26, 1995, you sought copies of documents within the Environmental Protection Agency's ("EPA's") possession that connected Mikon Products (the "104(e) Recipient") with the Bayonne Barrel & Drum Superfund Site (the "Site"). The enclosed documents are responsive to your request.

We cannot at this time ensure that other documents connecting the 104(e) Recipient with the Site are not located within records retrieved from the Site. Should you wish to review these records at EPA's Edison, New Jersey facility, you may schedule an appointment by calling Donna Murphy at 908-321-4433.

Sincerely,

Marc Seidenberg
Assistant Regional Counsel
